Agenda Points

1 Talked about ER diagram.

2 During the construction phase of the ER diagram, it was also supported by the diagrams we made before.

3 Are there any elements in the previous diagrams that we found unnecessary, overlooked, or considered incorrect?

4 Can the software be put on other platforms?

5 Are there any events that are not in the diagrams we made before (such as DFD) but not in the ER diagram? Discuss the suitability of making changes.

6 Sharing the thoughts about the place of the service chef element in the system.

7 What will we do next? Possible innovations?

Plans for the Next Meeting

We want to bring the project to a better, cleaner place by solving problems we haven't seen before. In order to be able to do this, at the next meeting, we aim to enter the final phase of the project by sharing the data we have obtained before (these can be notes, anecdotes about the troublesome parts) with other group members.
